Question 10 10 pts

In this question, you are the same cultural anthropologist who visited Macondo many years ago as a young man or woman. You have now returned out of curiosity to observe how the village has changed. In keeping with your character, you will write a journal entry from the first person perspective of the anthropologist, which describes not only the physical changes of the village, but your emotional observations, as well.

Please write a 10-12 sentence description--or more--a paragraph or two, which presents your observations and analysis. Describe the village in detail. Perhaps you return to the home of the Buendias in a nostalgic attempt to recapture the past. What do you observe? How has time transformed everything?
