Hard-boiled Eggs – *Listeria monocytogenes*

Do not eat, sell, or serve any recalled hard-boiled egg products.

Listeria is a harmful germ that can hide in many foods. Outbreaks of Listeria infections in the 1990s were primarily linked to deli meats and hot dogs. Now, Listeria outbreaks are often linked to dairy products and produce. Investigators have traced recent outbreaks to soft cheeses, celery, sprouts, cantaloupe, and ice cream
