What is Abortion?

Abortion is when a pregnancy is ended so that it doesn't result in the birth of a child. Sometimes it is called 'termination of pregnancy'.

How? 1. Medical abortion: The abortion pill.

2. Surgical abortion.

Aborchion in the United States

Percentage

Abortion is one of the most common medical procedures performed in the United States each year. More than 40% of all women will end a pregnancy abortion at some time in their lives.

Abortion Law

The US Supreme Court legalized abortion in 1973; currently, there are about 1.2 million abortions are performed each year in the United States.

People's opinions

Pro-life: People who are against abortion, often based on religion.

Pro-choice: People who are for the woman's right to decide over her own body and have an abortion if she chooses.

Mental Integrity

The right to mental integrity includes the womens ability and self-knowledge to make the right moral decision.

1. A woman's identity is the most important thing to her and the amount of control she has over her body affects how she will be seen as throughout society
2. Womens have the right to choose what they want to do with their body and what they choose is right for their lives.

The Abortion Question

1. Is it really ethical for a woman to be forced to carry a pregnancy up to the end?

2. Where and when does a life of a person begin, is it at conception or after an egg has been fertilized?

3. Does carrying out abortion treat the fetus unethical way?
