Presidential Policies

The forty-fourth president of the united states will be remembered indeed for his political record. Obama has a good office record that any president in the united states in the future can try to emulate. He had a swift way of doing things and conducting his business. Obama had a good record with congress. During his tenure, the congress passed very many laws. This was made possible due to the good relationship between congress and the executive.

The presidential term by Obama saw freedom of media at its best. The fourth estate was quite independent, and many laws regarding media freedom passed in favor of them (Thurber, 2009). This reason made various writers from different media stations write positive things about Obama and his office term. The individual who was the first of his kind to be president had raised the bar higher for upcoming presidents.

The balance of power between Congress and the executive was not an issue in Obama's administration. He was quite diligent, and he fully supported and respected congress. Therefore, there was no need for supremacy battles between the two arms of government. Obama's administration was quite successful. His unique style of leadership helped him coordinate the various components of government. He was a true leader who set the bar higher for future presidents and other political leaders in general.
