Subject: Proposal for Low-Income Families to have Access to a Free Summer Camp

Summary of the proposal

This proposal is for families of low-income to have access to a free summer camp for their children. This proposal will walk you through the necessary steps in order to make this happen which includes the need for a free summer camp and resolutions that will satisfy the proposal, budget, timeline and possible weaknesses.

Definition of the Problem/Definition of the Situation

According to the community of Fort Worth, Texas low-income families have the need for a free summer camp for several reasons which include:

- Children's Safety
- Affordable Summer Camp
- Educational Opportunities

Throughout the years, several low-income families have not been able to afford to enroll their children into summer camps due to the cost. Due to this reason, children are left at home alone with no one to watch them. This is a big problem because the child could injure themselves, leave their house and be taken etc. Summer camps also provide educational opportunities for children to learn new skills. While being at the summer camp the child would be surrounded by other kids, be fed and properly taken care of.

Objectives

A free summer camp for low-income families will benefit the community drastically. This free summer camp can be held at a non-profit organization, parks, a church or even schools that are willing to help. Parents won't have to work overtime hours in order to afford to send their child to a summer camp. In order for the summer camp to go as planned, we will need help from the community. This includes volunteers and donations from several organizations and people throughout the community to contribute.

Threats and Weaknesses

As for any concerns that we may have for this proposal there are two. One concern is Covid-19. Families, community members including possible volunteers may not be able to contribute to the summer camp because of Covid-19. With that being said, we would make sure that masks, gloves, hand sanitizers and any other safety precautions are taken care of while preparing for the summer camp as well as during the summer camp. Lastly, our last concern is donations. We would need a certain amount of donations from the community in order to run the summer camp properly.

Needs Assessment

- As for the timeline of this proposal we would like to start the summer camp next year in June. June, 2022.
- For the budget we would like to meet a minimum of ten thousand dollars by April of next year. April, 2022.
- We would like to organize several events throughout the next year in order to meet our goal budget.
- We would also like to organize places where people can donate their unwanted board games, games in general and other supplies needed to run the summer camp.

Conclusion

I believe that we as a community can come together and provide a free summer camp for those in need. This will benefit many families throughout Fort Worth, Texas. It'll give kids a safe place to be while they're out of school and many opportunities while attending summer camp. Thank you for your time and consideration.
