The Honorable ¹ Ted Cruz

127A Russell Senate Office Building

Washington, D.C. 20510

Dear Senator Cruz,

As a fellow native from Texas, I would like to congratulate you, together with your colleagues in support, for introducing the bill that prevents abortion providers from receiving Medicaid funds to facilitate abortion.

The historical Supreme Court ruling of 1973 *Roe v. Wade* (410 US 113) issued a go-ahead for many Americans to perform illegality while terming it a mere medical procedure that helps women do away with unwanted pregnancies. Abortion has been opposed by all fronts and meeting the equal force of reaction from the people who support it. The acceptance of abortion in hidden terms has been allowed through acts and laws that are either directly or indirectly in favor of the same. Thus, allowing the abortion providers to draw funding from the Medicaid funds to me has been one way the system has been supportive of the crime and abuse of human rights through abortion. It therefore only takes courageous gentlemen in the legislature like you to bring such vices to a stop.

As a Christian and the United States being a God-fearing nation, it is good of you to stand with the majority of us who believe that termination of the unborn is evil, unacceptable and must be given priority in our nation by funding through public money. I agree with your statements that it is your pride to join your colleagues in defending the unborn while standing with the states like Texas in upholding their rights to make their own decisions on how to allocate their resources. Therefore, I want to encourage you to continue with the strength you have put towards the bill since its introduction in the senate and persuade more senators more so from the Democrats side to see the good intentions it seeks in protecting the unborn and save the taxpayers money that can be used for other important developmental activities.

Bearing in mind that different states have their legislations depending on their internal issues affecting them, it is quite important to sail through with the bill until it becomes a law. When made a federal law, it will be possible for all the states to draw their legislations regarding the use of Medicaid funds in the best way that suits them. It is a constitutional right for everyone to live, including the unborn, and nobody is allowed to take away that right from anybody. For that reason, the funding of abortion in the name of supporting Planned Parenthood is unlawful and improper for a country that claims to be the best in the world when it comes to protecting human rights.

The right to protect the unborn is more fundamental than the women's right to control their bodies. The notion that unwanted pregnancies should be terminated is misplaced as everyone should be accorded the chance to live and pursue a life in the best way. Hence, supporting the bill with the zeal it requires should give you strength that you are doing the right thing. Many silent voices that support the bill will be heard when it finally becomes law. The Catholic Church and many human rights activists have always criticized the act allowing the taxpayers' dollars to be used in abortion. As a result, through their support, be assured that you will have the courage to face the pro-abortion groups who will do everything possible to ensure that the status quo is maintained.

² The report released by a non-partisan government accountability office (GAO) revealed that 81 percent of abortion providers received funding in the name of planned parenting from the more than 1.3 billion dollars Medicaid reimbursements for the last three years. This revelation is unfortunate for us as a country because the considerable money spent can be jointly used by both governments' levels to better the living of the children when born. Notably, I'm glad you have stood firm to challenge the status quo by saying this must stop, and we must be a country that protects the rights of its people, both the born and the unborn since life starts at conception.

There has been a tendency of many such good bills being stalled at committee levels. For that reason, I urge you to work around the clock in collaboration with other senators of goodwill and the senate leadership to bring the committee findings and improvements for debating and passing. Stand firm to prevent alteration of clauses of the bill at the committee level to protect the originality of the bill to serve its intended purpose of protecting the rights of the unborn and the inappropriate use of public funds. It is notably essential for the legislatures to know that it is their role to remove laws against human rights and replace them with protecting and upholding human rights through legislation. Therefore any law that promotes or facilitates abortion is primitive and must be gotten rid of by the senate.

The only constitutional solution to the fight against abortion is passing a referendum through a referendum question asking the Americans whether to prohibit abortion of any nature or allow it to continue. The people will have their say, and the simple majority will carry the day. Again, through the referendum, we will be able to have an abiding law for all as far as abortion is concerned. The by-laws that support abortion will be rendered null and void, and the public money will be saved a big deal for other important development activities. I will be glad to initiate a referendum through a public initiative to ban abortion in our country. Be sure most Americans, religious groups, human rights activists and your republican party will give you support.

Since most Americans oppose abortion and your party through its principles does not support it, I'm glad to inform you that your stand in strongly opposing abortion and other related acts will boost your political rating. Majority of American people, including Texas citizens, will always stand with and elect leaders who talk strongly fight against human rights violations. In the next election, if you continue supporting the legislation trying to stop abortion, you will be re-elected to continue representing us.

Thank you for your time and continue with the excellent work at the senate.

Yours truly,
