

# Reflection Plain | Reflection 3

Post-Week 12 | Reflection Plain

Reflect on your journey at this final point

## Finalising Data Analysis, Ethical Considerations, Timeline, and Resources

First, consider discussions and your thinking from Camp, and how these informed your earlier work from ***Data Management & Analysis Ravine, Ethical Considerations Marsh,*** and ***Resources Hill.***

In finalising your research proposal for Assessment 4, you will clearly and comprehensively describe the :

- Data analysis approach
- Relevant ethical principles applied to your proposal and how they will be addressed
- Resources required
- Timeline and related project elements

### Reflection

Finally, for the last section of your proposal, you will write:

1. How study validity or trustworthiness will be addressed
2. The potential implications for practice or policy, and how this research may add to the related body of literature.
