Yes, I agree!! Total happiness/contentment of the class on a specific teacher could demonstrate that clearly. Maybe you would do an anonymous opinion poll about the teachers, and get these results with the education administration or parent-teachers meeting. This shall make the stark reason for the school to take action on it. Even though the Prince is educated at several schools, there are some respected teachers who could suggest really being the proposal that Machiavelli provides; it is intended to help the prince's self-centered interests, or not to serve the society in common. These themes in this novel are said so harshly also bluntly that the word Machiavellian has now usually used to explain the progression of being intelligent as well as merciless at the quest of power. Early opinion authors, from Plato along with Aristotle at early times to the sixteenth-century humanists, treated politics as the division of the field of the belief that dealt by way of morals. Machiavelli's primary foundation was to go with the lengthy tradition along with be the study of the politics as a political science.
