Smith Rowe

The Human Resource Manager,

Steward Engineers Company,

13th Street,

London, Ontario.

Dear Mr. Rowe,

I was fascinated to identify the job posting in the eminent newspaper "The London Times" of Ontario, I am pleased to apply for the vacancy in teaching engineering graduate students in your well-regarded institution.

I recently graduated with a master's degree in Engineering and Technology from Arizona State University. I had a good academic record throughout the two academic years and completed it in 2020. During my study period, I engaged in various extracurricular activities ranging from sports to environmental services. Also, I served as the chairman of the engineering students association in my former institution.

I secured a job as a part-time tutor at a local high school near my university. I was in a position to interact with students learning the basics of mechanics and gain teaching experience. I was awarded the employee of the year in 2019. I have since then resigned to focus on my master's degree. With my education portfolio and experience, I hope that my candidacy suits the vacancy advertised in the newspaper.

My recent resume is attached to the cover letter. I look forward to getting feedback from your office and get interviewed. My contact info is attached below. Feel free to get in touch.

Regards,
