Ways of understanding the influence of the physical environment on human behavior *(2-3 pages)*

1. What have you observed about the impact of the physical environment on your behavior and the behavior of others? **(6 Points)**
2. How well do stimulation theories, control theories, and/or behavior setting theories account for the influence of the physical environment on your behavior and the behavior of people you know? **(8 Points)**
 1. Please be sure to give examples. **(2 Points)**

Papers ought to be 2-3 pages, double-spaced, 12-point font—excluding cover and reference pages.

Please attach a separate APA-style reference page and use APA style referencing throughout your paper.

References must be drawn from required readings to support your critique and may include outside scholarly articles to explain your viewpoint within a societal context.

Papers will be evaluated based on thoroughness, conceptual accuracy, critical thinking, grammar, proper use of APA referencing, and overall presentation. **(4 Points)**

A minimum of 2 references is required for this assignment. You may use a minimum of one scholarly article in addition to the textbook.

Please note that I will not grade beyond the maximum page length of **3 pages**.
