Date

Identification and Review of Health Information

- ▶ The act of a person intentionally causing their own death
- ▶ suicide falls under number 10 in the list of causes of death in US (Cook, 2019)
- ▶ Occurs in different groups demarcated by sex, age, location and race
- ▶ The rate of suicide occurrence significantly increase
- ▶ More males die than females through suicide (Stone et al., 2018)

Continuation

- ▶ Healthcare facilities can provide early information to prevent suicide
- ▶ Most suicidal individuals provides signs for their intentions
- ▶ 73% of the patients who died due to suicide were involved in substance abuse or mental health (Gerada, 2018)
- ▶ There is privacy trust in healthcare setting
- ▶ Use of risk screening leads to identifications of individuals at risk of suicide
