Registered Nurse Scholarship

In the words of Winston Churchill, "Success consists of going from failure to failure without loss of enthusiasm." I do not pronounce my barriers as a failure, rather, I trace my victories by my recurrent persistence through difficulty. Over the years, I have encountered numerous challenges from failing in school to having family problems; yet I carried on to earn good grades and graduated top of my class. I deserve this Registered Nurse scholarship because I possess the determination and strength to attain my goals, despite the difficulty I may be required to overcome.

Unfortunately, I was not born as a competent student. Assignments and tests were always a challenge whether I studied or not. I was also tested to check whether I might be having any learning disabilities. At a young age, it is sometimes difficult to understand what is going on in your life. You may not think that the environment you are living in affects your studies but it is, this was my case. I grew up in a violent family where there was no peace. But this did not reduce my focus of studying hard and becoming a registered nurse even though it affected me without my knowledge.

As I grew up, I have always wanted to help people and what is a better way than becoming a registered nurse? Nurses are responsible for taking care of sick individuals and that has always been my passion. Being able to assist others in need has a very satisfying feeling that I would do anything for. Saving lives and bringing happiness to people and their family members is something that I would always be proud of if my dreams become true. The scholarship would help in making my dreams of becoming a registered nurse come true.

The scholarship will help me, especially with my financial struggles. Paying off my tuition fee would be one of the greatest boosts I would receive if I landed this scholarship opportunity. It is a challenge paying my tuition fee which made me result in getting a student loan. The scholarship will help me avoid being in debt. We all know that student loans are a burden to graduates, therefore, this would assist me in avoiding the debt burden.

I chose nursing based on my childhood experience too. Losing someone close to you is a very painful experience. This gave me the urge of becoming a caring and supporting system for other families who might have similar experiences to what I had. No matter the reasons one would want to join the nursing profession, this is the ultimate connector to all of them. This profession involves taking care of strangers. These strangers in turn will forever be grateful for your assistance. This is part of what would make me happy as a nurse. Nursing is a selfless and unique profession because daily tasks involve caring for individuals who are at their most endangered minute. Nurses do this and I too want to do this to make me feel better and for those who I miss and mean something to me. Sacrificing constantly for a patient is what makes nursing different for me. The selfless acts of nurses inspire me more than anything.

The reason why I deserve this scholarship is that I have the determination and passion to become a counted-on member of the nursing community. With the skills and knowledge, I will have acquired, I will be able to assist patients get the treatment they need and give them the best chance of having a healthy life. You are not just assisting me to complete my studies, you are upgrading the quality of life for numerous families in the future. I am thankful for your consideration and looking forward to having a fruitful relationship during my studies.
